

Initial Build Review Notes

Date: 11/17/22

Roles:

Creative Director: Jin Park

Developer/Designer: Minju Kim

Meeting Notes:

- The overall design language has been fully understood and realized.
- The layout works really well, I love the little details that mimic the corners on a football pitch.
- The subtle implementation of Korean works really well but could be more noticeable (but still keeping it subtle)
- I think the website could benefit from varying image sizes.
- This might be a bit ambitious, but having photos fade in as you scroll down would be really nice!
- The overall design matches a minimalistic but stylistic feel.
- In terms of set-up, The awards section could be changed to an introduction section at the beginning.

we met over facetime!
