

## Mock-Up Review Notes

Date: 11/09/22

Roles:

Creative Director: Jin Park

Developer/Designer: Minju Kim

Meeting Notes:

- I really like the navigation bar and hero image in set A.
- Awards and recognition in set B work better, the same goes for type/color.
- Text descriptions and body of set A work better than centrally aligned in set B.
- Pretty much combining select elements from both sets to create a new set that has left-aligned text that is shifted to the right to make space for a sticky navigation bar on the left.
- Utilizing the hero image from set B instead of the one used in set A.
- Really like the font choice, pairs well with Korean type and the overall theme/look!
- Overall going for a minimalistic feel, and good use of text styling.
  - No need for strokes around images.

we met over facetime!
